

AbaClient Version 3.1.987

Please note before updating:

This AbaClient 3.0 only supports Abacus versions from Version 2019 onwards. Older Abacus installations can no longer be started with this client

Release Notes:

- Improvement from Abacus version 2024 with regard to the use of Java on 64-bit Windows systems.
- The Chromium browser integrated in AbaClient has been updated to version v7.34.1.
- The behaviour when the client crashes under ULC has been improved.
- Various bug fixes
