AbaClient Version 4.4

Installed AbaClients with the update function enabled will receive an automatic update notification within the next 14 days.

Please note the following before updating:

Abacus Version 2026 requires AbaClient 4.0 or later.

To benefit from the latest security updates, we recommend that you always use the most recent version of AbaClient available.

Release Notes:

Supported Abacus versions: From Version 2021 onwards

- Fix for the CVE-2026-91403 security vulnerability
